

PROGRAM

CELEBRATE: ACHIEVEMENTS DESIGN DIVERSITY SAN FRANCISCO, CA OCTOBER 12-15

2006 NOMA CONFERENCE

CONFERENCE SCHEDULE
SATURDAY, OCTOBER 14

3:00 pm - 4:00 pm

SA05 – Protection of Drawings and Designs under Copyright Law

This presentation on copyrights is specifically tailored towards architects and design professionals and intended to provide them with a comprehensive overview of the copyright protection law and its impact on the architectural practice. Topics to be covered include understanding what exclusive copyrights are available to architects and design professionals, how these professionals can preserve their copyrights in architectural works, what legal remedies and enforcement procedures can be invoked when a design has been illegally copied, and other practical considerations and pitfalls.

Andres Quintana

Moderator – Tyrone Marshall Michael Willis Architects

1.0 LU, Olympic Room

SA06 – Loose with Hand Graphics

Over the past 25 years, thousands of design professionals and students have joined in this incredible and unforgettable learning experience. Regardless of your age and background, this workshop will guide you to a higher potential and cultivate your ability to draw and design projects quickly and convincingly. Artistic talent can be taught and refined. You do not need to be gifted in art to enjoy this workshop. Just show up, and we will help to increase your confidence to the next level and adjust the proper attitude necessary in your professional career.

Mike Lim, ASLA, ASAI – Mike Lin Graphic Workshop

Moderator – Antoine Bryant, Row House Community Development Corp

1.0 LU, Franciscan Room

4:15 pm - 5:15 pm

SA07 – Science Lab Planning

This AIA/CES presentation revolves around how laboratories have evolved over the years and why. The information provided is based on years of listening to teachers about their need for effectively teaching and supervising a science classroom. We will review several types of K-12 educational lab designs from the most basic to the most technologically advanced. Since there is no such thing as “one size fits all”, we present these designs in a very objective manner, letting you decide what best fits the needs of your client.

Clay Thames, Sheldon Laboratory Systems

Moderator – Rod Henmi, Michael Willis Architects

1.0 LU (HSW), Franciscan Room

SEMINAR SPEAKERS & BIOS

Allison Williams, NOMA FAIA, Principal & Design Director, Perkins + Will - San Francisco

Ms. Williams is a principal and director of design for the San Francisco office of Perkins+Will, an architectural design firm with 20 offices around the world. Her 30-year career has been focused on the design of large-scale, mixed-use civic projects in urban contexts. She has held design leadership roles in numerous award-winning firms. Ms. Williams, one of America's few Black architects practicing in the design of significant civic buildings and cultural facilities became a subject of national media attention after winning the invited design competition for the August Wilson Center for African American Culture in Pittsburgh PA in 2003. Williams has been featured in several publications including The Wall Street Journal (November 5, 2003), U.S. News & World Report (December 29, 2003), The New York Times (June 24, 2004), Black Enterprise magazine (May 2005) and Ebony Magazine (October 2005) and her work was recently included in an exhibition at the Museum of Science and Industry in Chicago. Ms. Williams earned her undergraduate and Master of Architecture degrees from the University of California, Berkeley, and was a Loeb Fellow at the Harvard Graduate School of Design.

Andres Quintana

Andres Quintana, Esq. is the principal attorney at the Quintana Law Group, APC, a full service civil litigation firm which specializes in intellectual property matters. Mr. Quintana has extensive experience in intellectual property litigation both at the trial and appellate levels. He has also published several works on intellectual property, including on architectural copyright protection. Mr. Quintana received his bachelor's and law degrees from U.C. Berkeley. He is a former experienced trial attorney with the U.S. Department of Justice in Washington, D.C., where he received a Special Achievement Award by the Attorney General of the United States. Prior to commencing the Quintana Law Group, Mr. Quintana was a litigation and intellectual property partner at Ervin, Cohen & Jessup, a well-known Beverly Hills law firm. Mr. Quintana was selected as a "2006 Southern California Rising Star" by Los Angeles Magazine, recognizing him as one of the top up-and-coming lawyers in Southern California.

Antoine Bryant, Associate AIA, NOMA

Mr. Bryant is the executive director of Row House Community Development Corporation, a nonprofit focused on housing and innovative design, and sister organization of Houston's award-winning Project Row Houses. His interest in housing and his belief in a holistic approach to community development formed as a result of his upbringing in the Brooklyn "projects". Antoine appreciated the closeness of his urban neighborhood, but wanted to make a difference in his physical environment. Antoine Bryant has worked in a variety of genres in the analysis, design and development of affordable housing. Antoine earned his Bachelor of Science in urban and regional studies from Cornell University and did his graduate architectural training from the University of Texas at Austin. He has worked in architectural design and development of housing in the San Francisco Bay Area and in Austin and Houston, Texas. He is the Vice President of Houston NOMA and the NOMA University Liaison Southwest.

Anuj K. Dalal, P.E., Jones Lang LaSalle

Anuj Dalal is a Senior Project Manager in the Project and Development Services (PDS) division of Jones Lang LaSalle Americas. He currently supports the Bank of America account on a full-time basis for the approximate 40 million square feet US portfolio that Jones Lang LaSalle manages with a capital plan of over \$1.5 billion. Anuj has been with Jones Lang LaSalle since October 2003. He is actively involved in the delivery of construction projects at Bank of America's administrative properties in the San Francisco Bay Area. This includes work for clients on all aspects of project planning and implementation, including project monitoring, budgeting, program management, procurement, design development, construction, and construction administration.
